Pronouns: they/them

## EXPERIENCE

### **The Wyanoke Group, Remote — Front End Developer**

SEPTEMBER 2022 - AUGUST 2024

Extensive use of JavaScript and JavaScript libraries for animations, widgets, and interactive site features. Increasing focus on applications for Generative AI, specifically LLMs.

### **Amerimark Direct, Cleveland, Ohio — Web Developer**

NOVEMBER 2020 - SEPTEMBER 2022

Primary front-end specialist on a team of web developers. Extensive use of HTML, CSS and Less Preprocessing, JavaScript and jQuery. Took a course in React and built a proof of concept for a new feature using React. Used Git version control to track projects and organize parallel tasks. Use SQL and Progress to query and integrate data.

### **North Coast Media, Cleveland, Ohio — Web Developer**

JANUARY 2020 - JULY 2020

Developed and maintained websites based on a Wordpress CMS, with a focus on CSS and implementation of APIs through JavaScript. Created and implemented responsive designs to replace desktop-centric webpages.

## EDUCATION

### **General Assembly — Software Engineering Certificate**

SEPTEMBER 2019- JANUARY 2020

Remote certificate program in software engineering. Created web applications using JavaScript, jQuery, React, Angular, PHP, SQL, MongoDB, HTML, CSS, Git version control.

### **E.W. Scripps School of Journalism — M.S. in Journalism**

AUGUST 2017 - MAY 2019

Completed two years of coursework in digital media, including interactive media and data visualization. Withdrew out of medical necessity in the final semester.

### **Miami University — B.S. in Kinesiology with a Co-Major in Environmental Science**

SEPTEMBER 2012- MAY 2016

Studied diverse sciences including biology, psychology, geology, physics, chemistry, anatomy, and physiology. Graduated from the University Honors Program.

## EXPERTISE

### JavaScript

- React
- jQuery
- DOM Manipulation
- Assorted Libraries (I.e. CanvasJS, Flatpickr, etc.)

### HTML

- ARIA Techniques for Accesibility
- Cross-Browser Compatibility
- Search Engine Optimization

### CSS

- Preprocessors (Less, Sass)
- Bootstrap
- Responsive Design

### Git Version Control

- Branching, Merging
- Working with Remotes
- Stashing
- Rebasing

### AI

- Large Language Models (Gemini, GPT, Claude)
- Prompt Engineering
