Science
University Honors Program

PROFESSIONAL SUMMARY

I work at the intersection of design and technology, bringing creative vision to life. I pride myself on my attention to detail, and I enjoy solving complex problems. I work best with JavaScript, HTML, and CSS, and I develop solutions with responsiveness, accessibility, and cross-browser compatibility in mind.

EXPERIENCE

The Wyanoke Group, Frontend Web Developer
Remote - Sep 2022 - Current

Work in collaboration with a robust development and information technology team to produce high quality digital interfaces for continuing medical education and healthcare news. Focused on front end solutions and bringing designs to life.

Amerimark Direct, LLC, Web Developer
Middleburg Heights, OH - Nov 2020 - Aug 2022
Primary front-end specialist on a team of web developers. Create fully responsive webpages according to design specifications using HTML, CSS and Less Preprocessing, JavaScript and jQuery. Used Git version control to track projects and organize parallel tasks. Use SQL and Progress to query and integrate data.

North Coast Media, Web Developer
Cleveland, OH - Jan 2020 - Jul 2020
Developed and maintained websites with HTML, CSS, JavaScript and jQuery, WordPress, PHP and SQL. Organized and tracked projects with Git version control. Implemented responsive design, Google reCAPTCHA validation and Google Tag Manager.

Ohio University, Research Assistant
Athens, OH - Aug 2017 - May 2019
Created and maintained a digital media website to support organizational research and development.
